MINING, BUSINESS AND STOCKS.

GREATEST QUARTER SHOWING YET MADE

Report of Utah Copper Increases Output More Than 20 Per Cent For Three Months.

According to reports from the east, the quarterly report of the Utah Copper compary will show a greater earning and output than at any time in its history. A story published in the Boston News Eureau says the company at the present rate is earning \$4 a share

the present rate is earning \$4 a share or \$6,000,000 a year. The following relative to the dividend is published in the Boston News Bureau:

The report of the Utah Copper company for the quarter ended June 20, which is in preparation to be sent to stockholders, shows earnings not including income from Nevada Consolidated, of \$1, 92.551, which compares with \$871,957 for the March 31 quarter, and \$596,317 for the Dec. 31 quarter. Cost of production was 7.53 cents per pound, which compares with \$43 cents per pound in the March 31 quarter, and \$48 cents per pound in the Dec. 31 quarter.

quarter.
In detail, production for the last three

including income from Nevada (dated, were at the rate of over \$6,000,000 per annum, or \$4 per share on the out-standing stock, as will be seen from the following figures:

Earnings from own operation \$1,192,551
Dividend on Nevada Consolidated holdings 356,428
Net for quarter 1,548,976
Dividends on 1,532,821 shares 1,149,616
Surplus after dividend for 299,262

The profits of the June 30 quarter are figured on the basis of copper sales at 12½ cents per pound, although a little better price was actually received.

MARKET IS DULLER.

No Revival Noticed in Securities on Local Stock Exchange.

general spirit of dulness pervad-the local stock exchange this morning and stocks were slightly weaker

of the local stock exchange this morning and stocks were slightly weaker. Although trading was general there was little inclination to either buy or dispose of stocks.

The sales for the day amounted to 16.750 shares while \$5.426.25 was paid out for the securities. Columbus Consolidated sold at 49½ cents and 2.000 shares of Iron Blossom were sold at 73 cents. Nevada Hills also went off again and 200 shares were disposed of at \$2.25. Sloux was not as ective although the stock sold at 21 and 20½ cents.

Men who have been employed in the Opex contend that there was no ore in sight. It is declared that the company still has considerable work yet to do before reaching a known ore body in the mine. Conditions have been favorable for ore but it has never been reached.

been reached.

been reached.

On the curb market Opex was again the feature of trading. The sales were 4,151 shares of Opex at 51 cents; 504 shares at 52 cents buyer 60 days.

THREATEN TO FILE SUIT.

Stockholders of Daly-West May At tempt to Stop Drain Tunnel.

tempt to Stop Drain Tunnel.

Several of the heavy stockholders in the Daly-West Mining company who are still bitter toward H. Otto Hanke and other members of the Cincinnati crowd in control of the Daly-Judge Mining company, declare they will start court proceedings against the Daly-West management to prevent the extension of the Ontario drain tunnel into the Daly-Judge ground.

It is declared that there is a clause in the Daly-West contract for the drain tunnel, for which the company pays \$12,500 a year, that it cannot be run closer than 100 feet to any of the end lines. J. A. Bamberger declares

end lines. J. A. Bamberger declares that it is simply a clause to prevent others than the mines allowed to use the tunnel from receiving any benefit

Some of the stockholders declare they tre determined to test the matter in court, and that the clause is directed toward the Daly-Judge alone.

BOSTON COPPERS.

BOSTON COPPERS.

(by Badger Bro. Private Wire.)

Boston, Aug. 1.—The market opened up as a continuation of Saturday's listlessness both in volume as well as prices, but by noon a sharp rally in Lake and North Butte without explanation other than the buying was by the larger houses caused some activity in the minor copper issues and a stiffening of prices. We read all a stiffening of prices. We read all manner of encouraging interviews of importance, copper men showing noth-ing but a strong feeling for better-ment in copperdom from now on.— Hovey, Kenny & Co.

NEW INCORPORATIONS.

Articles of incorporation of the Kamas Brook Trout company, with principal place of business, Ogden, Utah, were filed with the secretary of state this morning. The capital is \$50,000, in shares of \$1 each, \$15,000 of which is paid by the incorporators. The directors are: George A. Whipple, George Shorten, Arta D. Young, Ralph W. Ashworth of Ogden and Edson J. Adair or Kamas. The object of the company is to raise trout at Kamas, near Coalville.

Articles of incorporation of the Springdale Consolidated Irrigation company were filed with the secreary of state this morning, the company being a consolidation of the Springdale Upper Ditch company and the Springdale Irrigation company. The capital is \$2.750 in shares of \$25 each, and the officers are: Thornton Henworth, president; Isaac H. Langston, vice president; and John Ruesch, secretary.

The Rochester German Insurance company of Rochester, N. Y., filed a copy of its articles of incorporation with the secretary of state on Satur-

MUCH COPPER SOLD BY SELLING AGENCY

Red Metal Brings Better Price Than Previously-Curtailment May Cut Dividends

The United Metals Selling company, which handles the copper output of the Anaconda group and other mines, has sold between 25,000,000 and 30,000,000 counds of electrolytic copper, says the Wall Street Journal.

None of the copper was sold below 12½ cents a pound, and later sales were made at a shade above 12½ cents. Sales by other companies are estimated at close to 25,000,000 pounds, making total sales within the last few days of between 50,000,000 and 60,000,000 pounds. Recent sales are larger than reported in several months past, and greatly re-duce the stocks of the copper com-panies, placing them in a much stronger rossition.

position.

Increase in buying is due to the belief of consumers that a general curtainment of copper output will soon be under way and that prices will improve

der way and that prices will improve in consequence.

Producers report the tendency of the market as upward, and believe that the metal will sell much higher before the latter part of next month.

A large amount of the copper recently sold was for domestic consumption. The Copper Producers' figures for the current month may be much more favorable as a result of the heavier movement of copper.

The return of John D. Ryan from Europe early this month is expected to be followed by the carrying out of the plan for curtailing copper output which will include all copper companies of importance. It is argued that while the copper companies' carnings will fall off as a result of curtailed output, this will be largely offset by expected higher prices for the metal.

DISCREDIT STORY.

DISCREDIT STORY.

Very little importance is attached to the reports from Europe that the Amal-gamated Copper company has secured control of the Utah Copper company. Control would have to be obtained from the Guggenheim interests, as they own a majority of the stock. Sufficient stock

a majority of the stock. Sufficient stock to give control to Amalgamated could not be obtained in the open market.

It is stated that a block of between 30,000 and 40,000 shares of Utah has changed hands within the last several weeks, but the identity of the purchaser cannot be obtained. Representation of the Amalgamated on the Utah board is a possibility, but a merger of the various properties is unlikely before the decisions of the supreme court in the Standard Oil and Tobacco cases are handed down. Merger negotiations were dropped six months ago.

tiations were dropped six months ago.
Emphatic denial that a representative of the Anaconda Copper will obtain a place on the board of the Utah Copper company is made by interests in clores touch with the affairs of the latte-company. Said an officer of the Utah "There is absolutely no foundation for the report that Amalgamated inter-

ests are seeking representation on the Utah board. Utah stock has stood up well under the recent market decline but no betterd than it should have done under its dividend record and prospects.
At 42 it yields 7 per cent per annum
on its present rate and it is earning
its dividends on 12½-cent metal. I know
of no development touching the company's affairs that could give rise to or justify the rumor mentioned above, and therefore feel certain that it is not founded upon facts."

CONCENTRATES.

Copper exports for July were 22,875 ons as against 22,968 in June, and 39,-46 in July last year.

Tony Jacobson, general manager of the Columbus Consolidated Mining company at Alta is down from the mine today. Two cars of ore have been received

the local market from the Hub mine the Utah Mining, Milling & Transportation company. According to Charles Steele of J. P. Morgan & Co., Wall street is full of calamity howlers because there is a

dearth of commissions. R. L. Nolf is in the city in the in-terest of Rice Mountain, on which it is asserted that some excellent gold

mines will be developed. Work was started today on the Zack shaft of the Ely Consolidated Copper company. The company is doing som drifting on the 400-foot level.

New machinery for the Chief Consolidated property is being received at Tintic. General Manager Walter Fitch says that no time will be lost in put-ting the machinery in.

The new hoist for the Eagle and Blue Bell has arrived at the com-pany's mine in Tintic. It will be in-stalled within the next 16 days, and is capable of working to the 2,000 foot level.

According to reports from the Utah According to reports from the Utan Mines Coalition, the 3,000 foot tunnel has encountered the Black Bess vein at a vertical depth of 900 feet. This famous old producer of ore is being cut and it is said that the ore is of a concentrating grade.

Another furnace at the International Smelting and Refining company plant in Pine canyon is being warmed up for action and a second reverberatory is also getting ready. It now looks as though the entire plant will be in running order before Sept. 1.

According to General Manager S. M.
Levy of the Ely Consolidated Copper
company, who returned from Ely
Saturday, a pump will shortly be installed at the Brilliant shaft of the
company. A car of ore taken out in
development work in this shaft is
now on the road to the Salt Lake
smelters

General Manager Jules Labarthe of he Mason Valley Mines company has eturned from the Yerington district. where he located the site for the new smelter at Wabuska. The railroad into the smelter site should be finished within the next three weeks, so that the heavy work at the plant can be started before Sept. 1.

Word has been received in the city hat Dick Wells has again struck it that Dick Wells has again struck it rich. This time he writes from Al-leghany, Cal. He declares that he has leghany, Cal. He declares that he has 11 placers and four quartz claims and that last week he refused \$150,000 for a half itnerest in the quartz claims. He says he is working six

men and has no partners. He further says that he will build a mill before the summer is over and that the tun-nel is in pay ore now.

Park City, July 31.—The following were the shipments in pounds out of the Park City district for the week ending Friday night:

Daly West 1,875,000 Daly Judge 772,000 Daly Judge (zine) 172,200 Daly Judge (zine) 501,700 Little Bell 93,000

The two stamp mill of the Wasatch-Utah is now running smoothly and by the end of the week it is expected that the first gold brick will be taken out. The company is now handling seven tons of ore averaging \$100 a seven tons of ore averaging \$100 a ton. As soon as the first brick is made and the management understands the treatment of the rock, the force in the mine will be doubled so as to get out 120 tons of ore a month and the mill will be increased to care for 20 tons of rock a day.

One of the richest strikes ever made at the Union Chief property near Santaquin is reported in a drift from a winze from the upper tunnel level. The drift is 150 feet from the winze which is down 150 feet and according to General Manager G. L. Bemis is in a full face of ore carrying galena and carbonate. An assay of the carbonate ore showed 3 ounces in silver. and 75.8 per cent lead. The galena ore was better showing 20.2 ounces in silver and 80 per cent lead. From the level on which the strike was made to the lower tunnel a chute is in through which the ore can be easily One of the richest strikes ever made to the lower tunnel a chute is in through which the ore can be easily mined. The property has ore in at least a dozen places and has over a mile of underground openings. The lower tunnel is now in 1,400 feet and it is believed that the recent strike can be caught about 300 feet ahead of the face of the tunnel.

STEINHARDT DISCHARGED. Chauffeur Who Fired Into Bystander Escapes Trial.

Robert Steinhardt, a chauffer, chargd with an attempt to commit murder, ed with an attempt to commit murder, following a pistol duel he participated in with Arthur Scott on Main street on the night of July 6, and in which Charles Offers, an innocent by stander was wounded in the thigh, was discharged at his preliminary hearing this forenoon. The testimony introduced in the case was of a weak nature, and brought out the fact that although both Steinhardt and Scott exchanged. both Steinhardt and Scott exchanged bullets, the indications were that Scott fired first Scott will come for his hear-ing tomorrow on a similar charge of attempt to murder Steinhardt.

attempt to murder Steinhardt, and The row between Steinhardt and Scott, also a chauffeur, was the continuation of an altercation beginning at the Buena Vista race track on the day of July 6, when one accused the other of "stealing" passengers. At night the two met and began firing at each other. Neither one was hurt, but one of the flying builets struch Offers, in the thigh, but did not inflict a serious wound.

WIFE REQUESTS SENTENCE.

T. G. Allen, of dipsomaniacal tendency, will spend five days in the city jail at the request of his wife, to overcome his recent spree. Allen was will-ing enough to plead guilty this morn-ing to the charge of drunkenness, but hardly expected a sentence. After Asst. City Atty. Dalton explained to Judge Whitaker the wishes of the family, the court denied Allen's entreaties for lenging and imposed a sentence of five days in the city fell. days in the city jail.

SMITH WINS ACQUITTAL.

Harry Smith, colored, and acting as his own attorney in the examination of his witnesses, won his case this morning and was discharged from the accusation of having stolen a watch from a Greek nomed Tom Nicolodenoos. Through two witnesses, one a watch-maked, Smith proved that he had had the watch in question in his possesssion several weeks before the alleged robbery and theft.

SHOWS DULNESS

New York, Aug. 1.-Opening prices of ocks showed declines with the exception of a few of the southeastern rail-way stocks. The whole market turned downwards afterward. Wabash preferred lost 14, Reading, Pennsylvania, Chesa-

lost 1%. Reading, Pennsylvania, Chesapeake & Ohio, St. Paul. Amalgamated Copper, Consolidated Gas, and Anaconda 1, and Southern Pacific, Union Pacific, Northern Pacific, American Smelting and Brooklyn Transit large fractions. Sloss-Sheffield Steel advanced 1% and Toledo, St. Louis & Western %. Supporting orders and a demand from the shorts caused a quick rally which litted some of the standard stocks to above Saturday's closing. The copper stocks weer sluggish. Denver & Rio Grande preferred, and National Lead rose 1. American Can preferred fell 1%. Minneapolis & St. Louis 2 and Frisco second preferred 21%.

American Can preferred fell 15. Minneapolis & St. Louis 2 and Frisco second
preferred 2½.

Offerings of stocks were scanty during
the second hour and the light demand
proved sufficient to sustain prices. The
government report of cotton condition
was awaited by the speculative element.
The London stock market holiday was
an element in the dulness. Westinghouse
Electric Gropped 2½ and rallied 1½.
Union Pacific, Atchlson, Chicago & Alton and Laclede Gas rose 1, and Slosssheffield Stect 4½.

Bonds were irregular.
Aside from an advance in Reading to
1.25½, which was not held, speculation
was dull and uninteresting. Great Northcrn Ore Certificates lost 1.
Chesspeake & Ohio turned weak, declining 1½ American Agricultural Chemical advanced 1½. Kansas City Southern
yielded 1½ and American Telephone 1.
Prices were sagging again at 2 o'clock.
The market closed unsettled and irregular.

The weakness of Chesapeake & Ohio un-

The weakness of Chesapeake & Ohio un-The weakness of Chesapeake & Ohlo undermined the general market. That stock broke 3% to 65%, last week's low price-Kansas & Texas fell 1%. Northern Pacific, New York Central and American Smelting 1%, Southern Railway preferred. Kansas City Southern preferred and Republic Steel preferred 1½. The general list sagged back to the early low prices or below. Stop-loss orders were encountered on the decline and yielded a gain.

PRODUCE.

CHICAGO.

CHICAGO.

Chicago, Aug. I.—With the harvest making rapid progress in the northwest and with returns as a rule exceeding expectations, wheat today showed a downward tendency. Foreign dispatches, however, did not indicate a builtsh situation, and there was soon evident in the market a railying power that had to be reckoned with. Cash demand was slow, but mills were said to be ready to take hold more freely.

On the other hand, receipts were heavier than had been expected. The opening was ¼ lower to ¾ ½ ½ higher. September started at 1.63¼ to ¾, unchanged to ¼ up. A decline followed to 1.65¼ and then an advance to 1.65½ ½%.

Cooler weather and a bearish crop report from Oklahoma weakened corn, but on the ensuing dip in quotations good buying set in and recoveries took place in consequence. The market opened ½ to 1c. down, with September at 63¼ to ½. loss of ½ to ¼. Rapid fluctuations were witnessed between 63½ to 64½.

Oats were dull and the range narrow. September started a shade to ½ ½ ¼ higher at 53% to ½, toucked 57½ and rose to 37%.

General liquidation by commission

o 37%.
General liquidation by commission houses lowered provisions. First sales were at 5 to 10 cents decline and there was a continuation of the recession. The was a continuation of the recession of the september option was

was a continuation of the recession. The opening for the September option was 21.50 for pork, 11.27½ for lard, and 11.25 to 11.27½ for ribs.

Wheat—Local receivers were sellers. The effect was bearish in conection with the large arrivals throughout the west over Sunday. World's shipments were very heavy, especially from Russia. The close was easy with September at 1.02½ ½ ½ to ½, a net decline of ½ to ½, 2½. Corn—Steadiness later at about Saturday's final figures was attributed to crop damage reports. The close was at 63% for September, a net loss of ½ ½ ½. Cash corn: No. 2, 64½ ½ 55; No. 2 white, 5½ ½ 56; No. 2 yellow, 6½ ½ 55; No. 3, 533, 264; No. 3 white, 64½ 65; No. 4 white, 63@64, Rye—Cash, 77½ 678; Sept., 76; Dec., 76.79.

TWO GREEKS INJURED; ANGRY MOB PURSUES

One Laborer Caught in Cave-in and Another Hit by an Automobile At Kennedy Sewer Camp.

Two Greek laborers employed by the Kennedy Construction company at West Temple between Ninth and Tenth South were injured within a few

South were injured within a few minutes of each other this noon. One. G. Dellett, was caught by a cave-in and was quite badly cut and bruised. He was not seriously hurt, however, and is recovering from his injuries at St. Mark's hospital, where he was sent soon after the accident.

The other Greek, S. Liclolas, was hit by an automobile owned by J. G. Mc-Donald and driven by Bert Stringhall. Stringhall was rounding a mean curve about the sewer and was just passing a point where a pump interferes with free passage over the road. The Greek was run on to unexpectedly and was knocked for a considerable distance by the impact. Stringhall stopped to ascertain the condition of his victim and to lend any aid possible, when he was confronted with an angry mob of countrymen of the injured party. He fled from the scene and went directly to police headquarters, where he gave himself up. He was released, however, and soon after the owner of the car appeared at police headquarters to report the accident and ascertain the desires of the officials. Licklolas was also sent to St. Mark's hospital, and is not seriously hurt.

THREE PATROLMEN WATCH ONE HOUSE

Police Department Indulges in Peculiar Policy in Abating Illegal Disorderly Houses.

Although the police department was unable through lack of sufficient force to station sufficient men within the tockade to serve warrants issued out of the city court, and although the department has been handicapped in running down criminals by scarcity of men, and although the cry of the police department is "give us more men to perform our duty," it has developed that the department is sufficiently strong to spare three men. ficiently strong to spare three men during each 24 hours to watch one

house.

For some reason untold a woman, "Bee" Bartlett, known as the landlady of one of Salt Lake's houses of ili-repute, has fallen under the ban, and three patrolmen, each doing a tour of duty of eight hours, are detailed daily to watch No. 7 Victoria alley and prevent men from going in there. Belie London still operates the stockade and there are other known houses of ill-fame within the uptown district, but the three specially detailed men are not concerned with them.

Chief of Police Barlow this morning admitted that the purpose of the police department is to close the house operated by Bee Bartlett and that men have been detailed for that sole pur-"That woman must go out of busi-

ress," the chief said this morning, "and we are going to put her out of business. Men have been detailed to watch the house and see that it is not When asked if other houses in the up-town district would be closed the chief replied:
"Well, we intend to close all of them,

Came Into Town With \$700 and Gets

W. H. Snyder, a miner from the Grand Central mine at Mammoth, came into town last week for recreation and on a purchasing trip. He arrived clothed in the traditional garb of the miner and brought with him a wallet containing \$700. One of his first acts containing \$100. One of his first acts was to secure a room at the Liacolin house and then to seek out a clothier to gain new attire. When making purchases about town, he pulled out his wallet frequently and apparently excited the cupidity of various onlookers. This morning he returned to the place where he had bought his new clothes and asked that the store take back the suit asked that the store take back the suit and give him enough money to get back to the mine. He was given \$10 and the clothes were returned. The miner explained that he had been roll-ed, but he didn't know when nor how. His best information was to the ef-fect that he woke up penniless, and that he wanted to get back to work.

WARRANT FOR JOYRIDER.

Police Court Not to be Collection Agency, Though.

A bench warrant was ordered issued this morning to bring A. S. Johnson into court on the charge of refusing to pay for the hire of an automobile in granting the order, Judge Whitaker made it plainly manifest that hereafter the practise of using the police court

as a collection agency will cease.

Johnson, a waiter at Saltair, in a burst of joyous enthusiasm, treated several friends the other evening to a "joy ride" in an automobile, but when the ride was ended he was shy the money to pay for the hire of the ma-chine. He was arrested on a charge of refusing to pay fare, and he was given until today to secure the money and pay the chauffeur's bill. He failed to make an accounting this morning, and will be brought before the court tomorrow morning. Judge Whitaker, however, in issuing the bench warrant stated that the court was in no wi a collection agency and such cases mu go through other channels hereafter.

LECTURE ON THE JEW.

Rev. Madison C. Peters to Deliver Address at the Assembly Hall.

The Rev. Madison C. Peters, a Pres-The Rev. Madison C. Peters, a Presbyterian minister of New York who arrived in Salt Lake this morning from San Francisco, will lecture Tuesday night at 8 o'clock in the assembly hall on "What Has the Jew Done for Civilization?" Besides lecturing throughout the country, Dr. Peters has written several books in relation to the history of the Jews. Among his works the most noted is perhaps "Justice to the Jews." If am the first Christian minister who has made a study of the Jewish people and endeavored to present the facts to the people," Dr. Peters said. "Most writers have brought out stories like the 'Wandering Jew." which does not present the true situation."

Dr. Peters's lecture has excited considerable comment in Portland, Seattle and San Francisco. As a result of his lecture in San Francisco, a national association was organized to secure money to erect a monument to Hyman Solomon, a Jewish banker who lived in Philadelphia at the time of the Revobyterian minister of New York who arWILL BUY

a cent in return from the United States government.

Dr. Peters is also interested in "Mormonism." While traveling from Helena to Seattle, he met Melvin J. Ballard, president of the Northwestern States mission. In regard to his interview, he said: "I learned a great many things in my chat with Mr. Ballard. To my astonishment I found out that what I had heard about the Mormon religion was not true. I will remain here for a few days and intend to study the Mormon religion from the inside."

Dr. Peters will lecture in Colorado Springs and Boulder, Colo., after he leaves Salt Lake.

LATE LOCALS

Street Lights Scarce-Nephi Morris petitioned the city council this morning to place a street lamp midway between Main and West Temple on First South street. He points out also that there are no street lights on Grape street, which runs northwest from the point where he asks the council to place a light.

Beets Picking Up—George Austin, agricultural superintendent of the Utah Idaho Sugar company for the Utah fields, say the beet crop has shown decided improvement since the recent storms in the mountains, even though the beet fields themselves have not always been reached by the moisture; he says the best stands so far are in Sevier county, where the beets are fully on a par with any previous years.
